### Firm Description:

The firm is a general practice firm, organized to provide across the board legal service to its clients.

### Department and/or Practice Areas:

Although not formally organized around departments, individuals within the firm concentrate their practices in a number of areas. Prominent areas of concentration include:

- *Litigation*
- *Estate Planning and Probate*
- *Real Estate*
- *Transactional Business Law*
- *Environmental Law*
- *Employment Law*

### Significant Firm Specialties:

We are a general practice firm and are therefore available to represent our clients in most areas of legal practice. Significant concentration of our practice, nonetheless, has occurred in the areas of Litigation; Estate Planning and Probate; Real Estate; Transactional Business Law; Environmental Law; and Employment Law.

### Firm Contribution to the Network of Leading Law Firms:

Located in downstate Illinois, 130 miles south of Chicago, Webber & Thies, P.C. offers available representation statewide. Our lawyers regularly are involved in a variety of projects (both transactional and litigation related) throughout the state of Illinois. Our reputation is excellent. We are well staffed and able to handle most matters referred to us. Our lawyers have also been active at a national level in many projects, both for our clients, and through the organized bar. As such, we have the occasion to work with clients in other parts of the country and would therefore have the need to refer matters to other law firms.
